 Funding Year: 2001- 2002  
 TUSD Date of Appeal: December 11, 2001  
 USAC Decision on Appeal: Denied in full  
 USAC Date of Denial: April 21, 2003

The USAC recently denied an appeal I made on behalf of Turner USD 202 regarding 471 Application Number 254190. They waited over sixteen months to communicate their denial, citing that in a letter forwarded to the USAC on April 19, 2001 from Dr. Austin, TUSD 202, he stated that the district was budgeting at least \$250,000 to pay for the district's anticipated share of e-rate funding for the 2001-2002 funding year. Please note that the total cost of these FRNs to the Turner USD 202, if they had been funded would have been \$236,565.86.

The district did make these purchases and paid for them in full without any help from the USAC. The total cost of the purchases was \$722,147.20. These purchases far exceeded the \$236,565.86 that would have been required for us to pay our share if the USAC had funded our expenses for the 2001-2002 funding year.

I do not understand why the USAC is denying my district technology funds. We have provided all of the documentation they have requested within the time limits they have imposed, yet they have waited sixteen months to issue a denial on a letter that was forwarded to them over two years ago. I believe we are being dealt with in a very unfair manner.

Thank you for your time and consideration.
